

# Industry 4.0 – Moving beyond Operational Excellence

---

iTanks breakfast table – April 2021

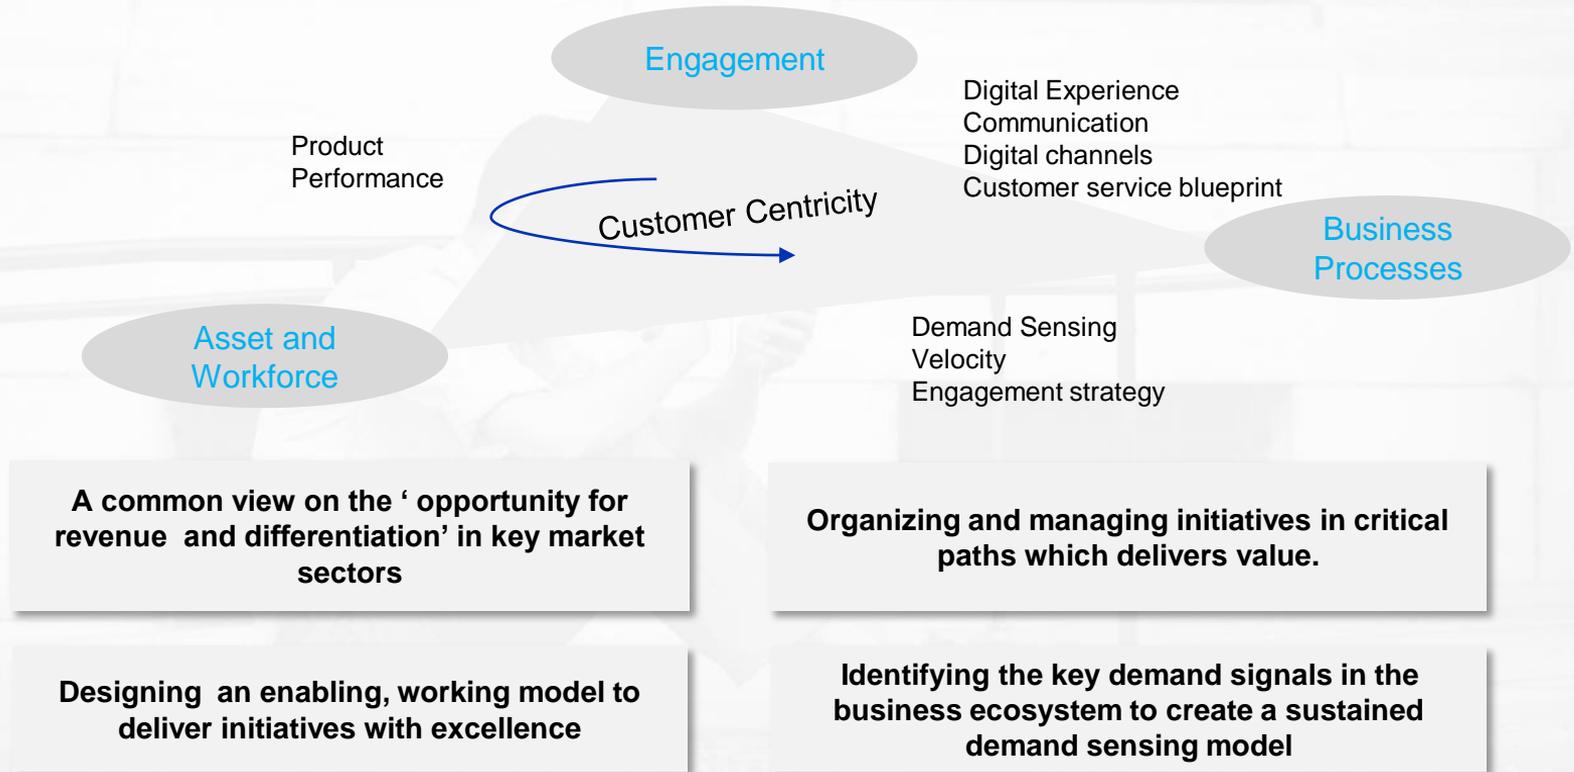

# Exponential growth of innovation

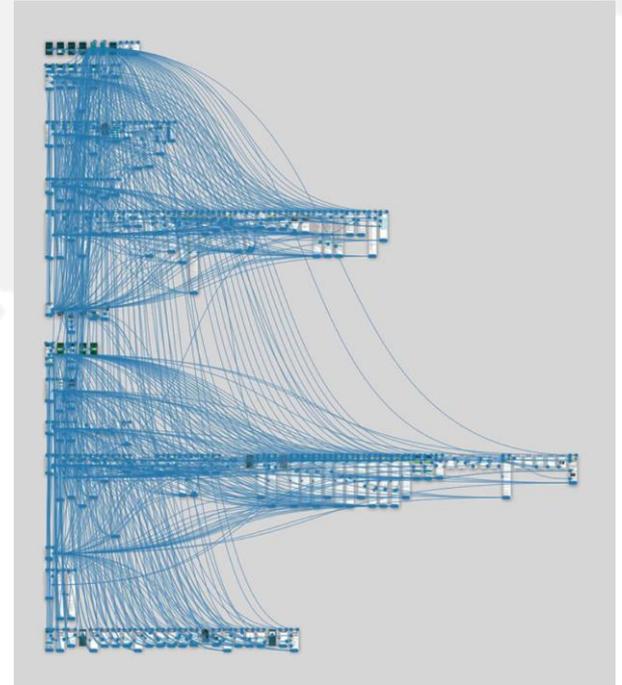

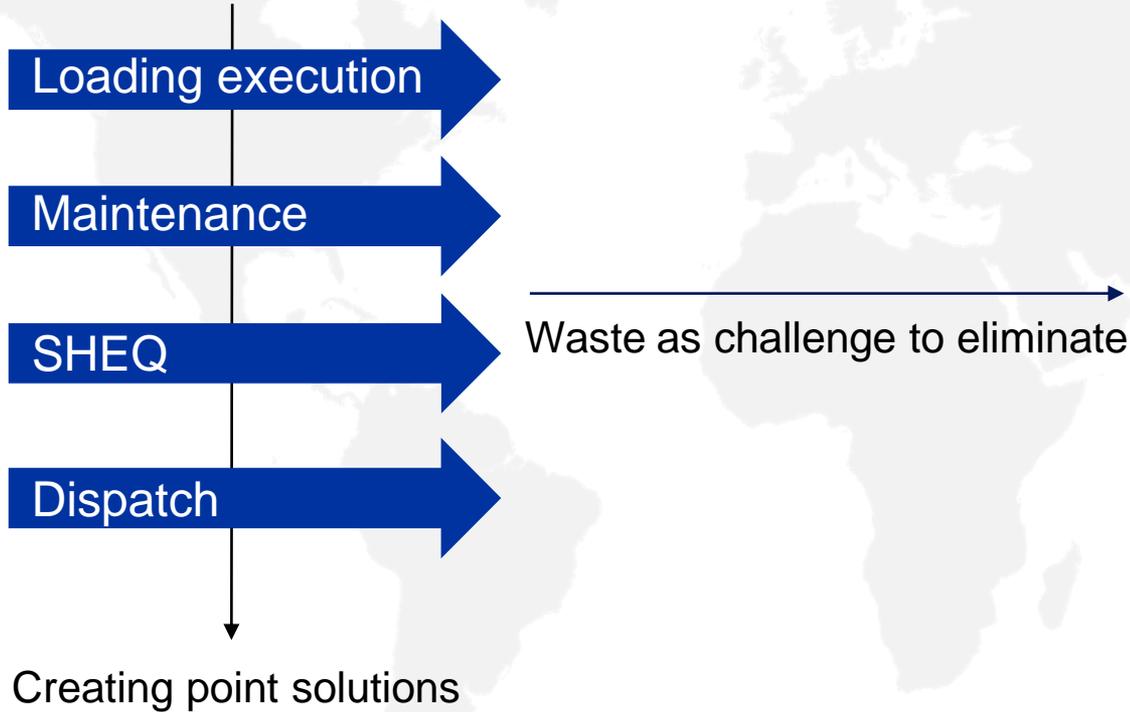

## Sustainable organization of the future:

- ❑ Leadership vision on digital business strategy – *what solutions are really needed*
- ❑ Creating an organization that embraces velocity in change – *flexibility to adapt*
- ❑ Anchoring focus on value based outcomes – *only invest if it creates benefit*
- ❑ Agile development – *think big & build in small sequential steps*

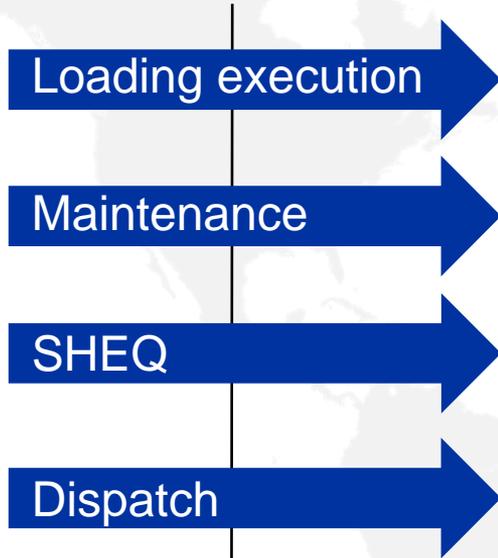

# Critical factors in achieving desired velocity, and scalability of transformational initiatives

# Moving beyond Operational Excellence

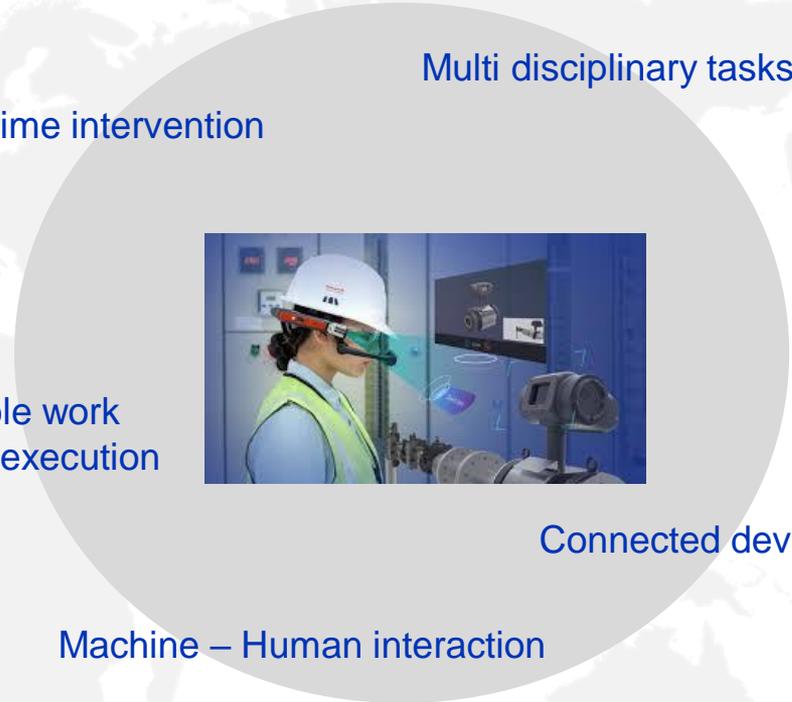

# Eliminate waste through Human Centric design

Creating point solutions

Solving human problems

Machine – Human interaction

## Thank you
